ABOUT

Time Entry Settings Page

The screenshot shows the 'Time Entry Settings' dialog box. It has several sections: 'Time Card Export Location', 'Database Location', 'Report Save Location', 'Database Management', 'Default View', and 'Oracle Suffix'. Red arrows point from text annotations to specific UI elements.

Annotations:

- Set Folder where Time Entry will send the Oracle exported Files (points to 'Time Card Export Location' SELECT button)
- Set folder where TE.MDB (main database) resides. (points to 'Database Location' SELECT button)
- Set Location where search results will be saved (points to 'Report Save Location' SELECT button)
- Create new empty database file. (points to 'Create Database' button)
- Back up the Current Database. (points to 'Backup Database' button)
- Restore Database from A backup file. (points to 'Restore Database' button)
- Set default view when Time Entry program loads (points to 'Calendar View' radio button)
- Enter or set default Oracle string (required at bottom of exported time cards) (points to 'Oracle Suffix' text area)

UI Elements:

- Time Card Export Location: C:\Documents and Settings\VE0051024\My Documents\NetBeansProjects\TEWIN
- Database Location: C:\Documents and Settings\VE0051024\My Documents\NetBeansProjects\TEWIN
- Report Save Location: C:\Documents and Settings\VE0051024\My Documents\NetBeansProjects\TEWIN
- Database Management: Create Database, Backup Database, Restore Database, Export Historical
- Database Size: 1110 KB
- Default View: ☒ Calendar View, ☐ Weekly Time Card View
- Oracle Suffix:

```
#####,  
ORACLE RESERVED SECTION,  
#####,  
START_ORACLE,  
A|PROJECTS|Attribute1|A|PROJECTS|Attribute2|A|PROJECTS|Attribute3|PROJECTS|Attribute5|D|D|CommentText|D|D|CommentText|D|D|C  
STOP_ORACLE,END
```
- Buttons: Set Default, Apply, Close
